**Subject:** RE: Support the consumer, not the business

Dear Ms. Kellerman,

This is to acknowledge receipt of your email to the Public Service Commission. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2005-385-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

**Subject:** Support the consumer, not the business

It is time to increase the 100-kilowatt cap that is in place now. We need this for our lives, our livelihood, and our state. Not only should businesses be using solar energy but the state should be leading the way to power street lights and state buildings.

I am from District 1 and since there are no email addresses listed on the website for the commissioners, I am sending my opinion to this 'catch all' email.

Regards,  
Sarah Kellerman
